Negative/Negative

Barrells Road 9	Ok out of Village	Only issue is the access needs improving	No definitely not
	Small scale	Possible but getting isolated from main village envelope	Unsuitable
	Maybe. Still amongst other buildings	No. Too far out of village	
	This is an ok site but only for small development as the roads are not suitable for lots of traffic	Landscape impact	
	Yes, but rather outlying	No transport links	
	Preferable to build on the quieter outskirts of Thurston.	Not near village facilities	
	Yes, good position does not impact on other properties.	No reasonable road access	
		No. Too remote	
		Road access difficult	
		No. Too far out of village	
		No. Too far out of village and extending development boundary	
		Not suitable. Too far outside village	
		Too far out of village	
		Too far out of village	
		Not suitable as the current settlement boundary has virtually no relationship with this site. Existing roads are not suitable for construction traffic.	
		Right on the railway line, so it might be difficult to make residential use desirable.	
		Too far out of village for development	
		Too far out of village and the roads leading to it are unsuitable.	

		Too far from the current settlement boundary.
