Plum Pudding field. 10	Could be ok if adequate footpath to the village and station included	Ok for development	
		No, there are already 3 schools.	
	Could be suitable, easy access to main road and not affecting remainder of village.	No too far from village facilities and would make village sprawl.	Possible for development but not ideal
	Ok for development has least impact on village	No too far out of Village	No view
	Would probably work well for a retirement village.	Too far out of village	
	Good site for development.	No sprawling to far out of village. Loss of footpath	
	Could be good for new secondary school.	Suitable for development	
		Does not meet any of the criteria preferred by the meeting	
	Yes, this is a good location with decent roads.	Less impact better access during building process	
		No make village sprawl	
		This is too far away from the village.	
		Concerns about busy road. Safe pedestrian & vehicular access a major consideration.	
		Not suitable as the current settlement boundary has virtually no relationship with this site. Existing roads are not suitable for construction traffic.	
		Not suitable for traffic reasons, road unsuitable
