

Development area

Positive comments

Negative with reasoning

Negative/Negative

Four & Twenty 8	Ok for development as has least impact on village	No dangerous access	No
		Not suitable, Subject to flooding	Dreadful idea No, No, No
	By "long term" could be anything. This is a logical area for expansion.	No. Not a good idea. Destroying the area around the Church.	No, too far out
		No dangerous access	No
		Inappropriate given the proximity of the Church and Churchyard. This should be remain a respected and quite area	
		Too far out of village	
		Not in favour too close to the Church, would take residential area too far away from village	
		Definitely No, part of a beautiful view from the Church area.	
		Not suitable as too far out of village	
		No. Strongly disagree, as this is a particularly beautiful area admired by all. Roads leading to it are too narrow.	
		Not suitable as the current settlement boundary has virtually no relationship with this site. Existing roads are not suitable for construction traffic	
		There will be nowhere to walk in the countryside.	
		Natural beautiful views to precious to lose	
		Dreadful, this is a lovely field with beautiful views looking out the village and looking inward to the village	
		Poor site will totally spoil the setting of the church	

		I think we are losing too many green spaces, and countryside to walk in.	
		Too far out of village
