Proposal: CONSULTATION: Norton Road, Thurston - Extension of 30mph speed limit

Suffolk County Council is proposing to extend the existing 30mph speed limit on Norton Road, Thurston, as shown on attached drawing 201328/01.

It is proposed that the existing 30mph speed limit is extended from a point 100m east of its junction with Sandpit Lane, in an easterly direction to a point 226m east of the centre of its junction with Church Road, a total distance of approximately 700m.

Land to the north and south of Norton Road (between its junctions with Sandpit Lane and Church Road) is allocated for residential development, with construction currently taking place. Once the developments are complete, this part of Norton Road will satisfy Suffolk County Council's criteria for a reduced speed limit. The purpose of this proposal is to avoid danger to persons or other traffic using the road, which may arise from new turning movements or increased traffic usage.

If the Parish Council wishes to comment on this proposal, all responses should reach SCC 15th May 2020.
