4 May 2023

Dear Ms. Waples,

RE: TREE WORK AT SCHOOL ROAD, THURSTON

It is with pleasure that we can submit the following quotation:

Tree numbers as per those detailed in report of tree condition survey prepared by Urban Forestry, dated 21st April 2023.

Part One
High and Medium Priority Work

Job Details		
Tree	Species/location	Specification/method
T3	Pedunculate oak	Reduce in height to approximately 3 metres height, allowing the lower part of the trunk to be retained as a habitat monolith.
T5	Pedunculate oak	Remove ivy and major deadwood (over 50mm diameter or over 500mm in length). Crown lift to 3 metres above ground level.
T6	Pedunculate oak	Sever ivy by removing from ground level to a height of approximately 1.5 metres.
T14	Pedunculate oak	Remove major deadwood (over 50mm diameter or over 500mm in length). Crown lift to 3 metres above ground level.

Arisings	
Tree	Specification / Method
All trees	Remove from site the arisings of the above work (regarding stump grinding spoil, back fill hole with grinding and remove any excess spoil).

Other Details	
Equipment	Price quoted includes one day's provision of a cherry picker to carry out the aerial work to tree T3.
Planning	An enquiry on the Mid Suffolk District Council website confirmed that none of the trees detailed are subject to a tree preservation order or within a conservation area.

ARBORICULTURE • SOFT LANDSCAPING • FENCING • PAVING • CONSULTANCY • FIREWOOD

Please Note	As opposed to reducing tree T3 to a habitat monolith as detailed, the extra cost to fell this tree to ground level and grind out the stump would be an additional £437.50+VAT in addition to the sum quoted below.
--------------------	--

Price	£2,975.00
V.A.T @ 20%	£595.00
Total	£3,570.00

Part Two
Low Priority Work

Job Details		
Tree	Species/location	Specification/method
T1	Cherry	Lift turf to a radius of 1 metre from the trunk and then mulch this area to a depth of 70mm with composted woodchip.
T2	Swedish whitebeam	Crown lift to 2.5 metres above ground level.
T4	Pedunculate oak	Lift turf to a radius of 1 metre from the trunk and then mulch this area to a depth of 70mm with composted woodchip.
T9	Silver birch	Crown lift to 2.5 metres above ground level.
T10	Rowan	Crown lift to 2 metres above ground level and remove basal suckers.
T11	Swedish whitebeam	Crown lift to 2.5 metres above ground level.
T12	Lime	Crown lift to 2.5 metres above ground level.
T13	Swedish whitebeam	Crown lift to 2.5 metres above ground level.

Arisings	
Tree	Specification / Method
All trees	Remove from site the arisings of the above work.

Other Details	
Planning	An enquiry on the Mid Suffolk District Council website confirmed that none of the trees detailed are subject to a tree preservation order or within a conservation area.

Price	£875.00
V.A.T @ 20%	£175.00
Total	£1,050.00

All works are carried out in accordance with the BS3998:2010 British Standard recommendations for tree works.

This quotation is valid for three months from the date given above.

Please note our payment terms are twenty-eight days from date of invoice.

ARBORICULTURE • SOFT LANDSCAPING • FENCING • PAVING • CONSULTANCY • FIREWOOD

TRUSTMARK
Government Endorsed Quality

Should you find our quotation acceptable please would you confirm acceptance of this in writing. In doing so you are confirming that you accept our terms and conditions as attached. Please note that if an order number is required to enable payment of our invoice then this order must be sent to us **before** works commence. A delay in commencement of the works may occur if we do not receive the order.

Please find enclosed a copy of our liability insurance and a site-specific risk assessment for your information.

Assuring you of our best attention at all times.

Yours sincerely,

D Franklin
